Pre-application Conference re: Exterior Alterations to Stagecoach Plaza – 725-745 High Street
Presentation
Proponents Gregory Salvatore and Scott Moriyama of Salvatore Capital Partners were present along with Economic Development Officer Pete Hechenbleikner. Mr. Salvatore described the proposed alterations as being aesthetic improvements of the façade frontage, including installation of a new roof, removal of the existing overhang and renovation of the wood frame portico. Tenant awnings, wall sconces, gooseneck lighting fixtures and concrete landscape planters will be added. A new tenant, Comella’s Restaurant, will re-use a portion of the building in the space formerly known as Victoria’s. Mr. Salvatore acknowledged that as part of the exterior alterations, a new exterior grease trap will be installed in accordance with the Sewer System Rules and Regulations. Mr. Moriyama added that they will contact the Health Department regarding compliance with its regulations as well.

Board Discussion/Comments & Questions:
- Is the second floor of the building fully leased? (Yes)
- Is the parking layout and number of spaces sufficient? (Yes, as Comella’s Restaurant will have fewer seats than the previous tenant.)
- What kind of business is planned for the left-hand corner of the building where the former convenience store was? (Hopefully, a complementary tenant mix.)
- A board member commented that the existing fence on the left hand side of the property is in poor condition.
- Does this building have an elevator(s)? (No)

Public Comments:
None.

Motion/Action Taken:
Board members agreed that they are in favor of the proposed exterior alterations at 725-745 High Street. Ms. Loughnane recommended that the proponent complete an application for Environmental Impact and Design Review and to work with other town departments to comply with other requirements.

Motion/Action Taken:

Consideration of Modifications to USROD Special Permit for Colburn School Building – 668 High Street
Presentation
Representatives from Coffman Realty, Michael Coffman and Ben Hartley were present to discuss
ongoing concerns with exterior lighting and signage at the Colburn Building.

**Board Discussion/Comments & Questions:**
Ms. Loughnane informed the Board that there is significant light trespass from the Colburn and Library lighting fixtures onto adjacent properties. Deputy Director Chris Gallagher was on-site last night at 7:15 p.m. to measure the lighting with a meter device. (The Board was given a copy of the photometric plan with readings hand-marked over it.)

- Some portion of the light trespass is caused by unshielded under-canopy lights in the drive-thru area for Peoples Bank. The applicant has proposed retrofitting the installed fixtures with shields to decease the horizontal light spread. A test of the proposed shields was conducted last night. The meter readings for the shielded fixtures seemed to comply with the maximum under-canopy average requirements, but there still appeared to be significant light spillage onto the adjacent properties. The applicant will make modifications to the shield design to better direct the light downward from the under-canopy fixtures. A request has also been made that Peoples Bank decrease the light output through the use of lower wattage light bulbs in these fixtures.

- Ms. Loughnane and Coffman Realty are working with the electrical contractor for the Library project to address the light trespass issues related to the pole fixtures. The light meter readings related to the pole fixtures are significantly higher than shown on the approved photometric plan. The electrical contractor is investigating the design of more effective shields. A test of a new shield design for these pole fixtures will be conducted as soon as possible.

- A concern had also been raised about the use of internally lit lettering on the signs for the drive-through window and drive-through ATM. The Westwood Historical Commission expressed concern that the existing signs detracted from the historic character of the building. The applicant installed a tinted plastic shield on these signs to dampen the sharpness of the LED lettering. Ms. Loughnane will inform the board if she receives further comment from the WHC.

- Board members generally agreed that this site is too brightly lit, whereas the adjacent sites are more dimly lit.

- A Board member suggested that the lighting under the canopy should be turned off by 10:00 p.m.

- The light fixture closest to the Malster property is remaining on all night long and should not be.

- A board member suggested that these lights should be even, multiple points of LED fixtures.

**Public Comments:**
None.

**Motion/Action Taken:**
**Endorsement of Tripartite Agreement**
Ms. Loughnane explained to the Board that the applicant has requested the issuance of temporary Certificates of Occupancy for each of the apartment units. Since several items remain unfinished, including exterior painting and landscape items that cannot be completed before spring, Ms. Loughnane proposed the funding of all incomplete items, including the cost of new light shields and
replacement lights for the ATM sign, pursuant to a tri-partite agreement for $19,350. The form of agreement has been approved by the Town Administrator and Town Counsel. Town Counsel Tom McCusker was present before the Board to witness and notarize the signatures of the Board.

Upon a motion by Mr. Wiggin and seconded by Mr. Olanoff the board voted unanimously in favor to endorse the Tripartite Agreement.
